

National Conference On PROCESS ENGINEERING AND ENVIRONMENT

PEE-NC-ENP, 2025

2nd Call for abstracts

Celebration of the

HONORARY PRESIDENT

Pr. Abdelouahab MEKHALDI

CONFERENCE PRESIDENTS

Pr. Yacine KERCHICH

Dr. Naima DJELLOULI

Dr. Assira CHEIKH

PRESIDENTS OF SESSIONS

Topic I. Pr. Nadjib DROUCHE
 Pr. Hakim LOUNICI
 Pr. Hassiba ZEMMOURI

Topic II. Dr. Rym SALAH

Topic III. Pr. Rabah BOUARAB

Topic IV. Pr. Noureddine GABOUZE
 Pr. Ferroudja MOHELLEBI

New dates

* Second call :

April, 7th, 2025

* New abstract submission deadline:

May, 1st, 2025

* Notification of acceptance:

May 10th, 2025

* Conference dates :

May 21st & 22nd, 2025

New Participation fees
 (without accommodation)

5 000 Da for students

8 000 Da for academics

12 000 Da for industrials

Best communication will be awarded

Objectives

This conference serves as a platform for researchers, academics and industry professionals to converge and exchange insights, innovations and advancements in the realm of Process Engineering for the Environment with an extensive array of topics spanning from sciences, techniques and processes for the Environment, biofuels and bioenergy, catalysis, electrolysis and electrochemistry to the sustainability of biofuels. Attendees will delve into discussions on various generations of biofuels, exploring their production processes, applications and environmental impacts. Furthermore, Key themes of the conference will spotlight on emerging trends in water, air and soil treatments processes, photocatalysis, electrochemical devices to power sustainable energy, energy storage and conversion devices ... Welcome to our conference which will coincide with the celebration of the centenary of our prestigious school !

Topics

I. Sciences, Techniques and Processes for the Environment (Water, Air & soil treatment processes)

II. Biofuel & Bioenergies (Biomethane, Biohydrogen & bioelectricity)

III. Catalysis for Green Energy Production (homogeneous & heterogeneous catalysis, photocatalysis)

IV. Electrolysis & Electrochemistry (Electrolysis for Green Hydrogen production, Electrochemical devices to power sustainable energies, Electrochemical energy conversion and energy storage systems)
